

April 15 1946

Abe Dear:

Just received a letter from you that you wrote on April 12th. I guess by this time you have received another one from me with the copy of the letter I sent Brady Johnson.

I am hastening to answer you, because in the last letter from Brady, he hasus in Richmond instead of Norfolk on the 28th. I did not want to write to Norfolk about rooms until I know where we are going to be that day.

I am sending your letter back, because I do not understand what date you are asking about in Richmond. I have a circle around it. It looks like the 17th, but you will still be in Jacksonville the 17th.

I had a long distance call from Sonnyman in Pittsburg, asking could you let him have an infielder. I told him I would ask you when you called or when I wrote you. Evidently The Grays don't look so good. I saw in the paper where the Cubans beat them two out of three. If you want me to write him anything let me know. He also said all his pitchers had sore arms. I guess they have been playing them too much.

There is no news here. It is three weeks before opening so I haven't put any tickets out yet. I have had some calls. I am sure everything will be alright.

You never send me any news of the players. There must be somethign new happening all the time. Pearsons letter was so nice I gave it right to Butts as it was. I guess I will have to ask him to send me another. How is Doby's arm? and Hookers foot?

I hope you are feeling well. I am having a swell rest in spite of the things there are to do. Will be looking to hear from you.

Love Effa.
